Dorsey, Chief Special Master:

On October 24, 2016, Wogayehu Dubale (“petitioner”) filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*,² (the “Vaccine Act”). Petitioner alleges that he suffered Guillain-Barré syndrome (“GBS”) as a result of an influenza (“flu”) vaccine he received on October 6, 2015. Petition at 1. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On November 15, 2017, respondent filed his Rule 4(c) report in which he states that he does not contest that petitioner is entitled to compensation in this case. Respondent’s Rule 4(c) Report at 1. Qualifications and Aids to Interpretation ('QAI')." *Id.* at 4. Respondent further states that although the revised Table only governs petitions filed on or after the effective date of the final rule, the evidence shows that petitioner suffered GBS following the administration of a seasonal flu vaccine, and that onset occurred with the time period specified in the Table. *Id.* Recognizing that petitioner may re-file this petition and be afforded a presumption of causation under the revised Table, respondent does not contest entitlement to compensation in this case. *Id.*

In view of respondent's position and the evidence of record, the undersigned finds that petitioner is entitled to compensation.

IT IS SO ORDERED.
