Petitioner seeks compensation for the death of his son, M.C., on March 3, 2015, allegedly due to intussusception following a rotavirus vaccination, which was administered on February 15, 2015. Petition at 1. The case was assigned to the Special Processing Unit (“SPU”) of the Office of Special Masters.

“concluded that M.C. suffered the Table injury of intussusception following a rotavirus vaccine within the Table time period, and his death was a sequela of the Table injury.” *Id.* at 3-4. Further, there “is not a preponderance of medical evidence demonstrating that the intussusception and death were due to a factor unrelated to the vaccination.” *Id.* at 4. Therefore, based on the medical evidence of record, respondent believes entitlement to Vaccine Act compensation is appropriate. *Id.*

In view of respondent’s concession and the evidence of record, the undersigned finds that petitioner is entitled to compensation.

IT IS SO ORDERED.
