On February 15, 2017, petitioner filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*,² (the “Vaccine Act”). Petitioner alleges that he received an influenza vaccine on October 2, 2015, and thereafter suffered from a shoulder injury which was caused-in-fact by the flu vaccine. Petition at 1. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On September 22, 2017, respondent filed his Rule 4(c) report in which he concedes that petitioner is entitled to compensation in this case. Respondent’s Rule

4(c) Report at 1. Specifically, respondent states that the Division of Injury Compensation Programs, Department of Health and Human Services “has concluded that a preponderance of evidence establishes that the injury to petitioner’s left shoulder was caused-in-fact by the administration of the flu vaccine on October 2, 2015 . . . ” *Id.* at 2-3. Respondent further agrees that “petitioner’s injury is not due to factors unrelated to the administration of the flu vaccine, and petitioner has suffered the sequela of her injury for more than six months.” *Id.* at 3.

In view of respondent’s position and the evidence of record, the undersigned finds that petitioner is entitled to compensation.

IT IS SO ORDERED.
