In the United States Court of Federal Claims

OFFICE OF SPECIAL MASTERS No. 17-645V Filed: February 7, 2018 UNPUBLISHED

EMILY MCINTOSH,

Petitioner,

v.

SECRETARY OF HEALTH AND HUMAN SERVICES,

Respondent.

Special Processing Unit (SPU); Ruling on Entitlement; Concession; Table Injury; Influenza (Flu) Vaccine; Shoulder Injury Related to Vaccine Administration (SIRVA)

Ronald Craig Homer, Conway, Homer, P.C., Boston, MA, for petitioner. Christine Mary Becer, U.S. Department of Justice, Washington, DC, for respondent.

RULING ON ENTITLEMENT¹

Dorsey, Chief Special Master:

On May 16, 2017, petitioner filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*,² (the "Vaccine Act"). Petitioner alleges that as a result of receiving an influenza ("flu") vaccination on October 20, 2015 she suffered a shoulder injury related to vaccination ("SIRVA"). Petition at 1. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On February 5, 2018, respondent filed his Rule 4(c) report in which he concedes that petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, respondent indicates that

¹ Because this unpublished ruling contains a reasoned explanation for the action in this case, the undersigned intends to post it on the United States Court of Federal Claims' website, in accordance with the E-Government Act of 2002. 44 U.S.C. § 3501 note (2012) (Federal Management and Promotion of Electronic Government Services). In accordance with Vaccine Rule 18(b), petitioner has 14 days to identify and move to redact medical or other information, the disclosure of which would constitute an unwarranted invasion of privacy. If, upon review, the undersigned agrees that the identified material fits within this definition, the undersigned will redact such material from public access.

² National Childhood Vaccine Injury Act of 1986, Pub. L. No. 99-660, 100 Stat. 3755. Hereinafter, for ease of citation, all "§" references to the Vaccine Act will be to the pertinent subparagraph of 42 U.S.C. § 300aa (2012).

DICP has reviewed the facts of this case and concluded that petitioner's claim meets the Table criteria for SIRVA. Specifically, petitioner had no history of pain, inflammation or dysfunction of the affected shoulder prior to intramuscular vaccine administration that would explain the alleged signs, symptoms, examination findings, and/or diagnostic studies occurring after vaccine injection; she suffered the onset of pain within forty-eight hours of vaccine administration; her pain and reduced range of motion were limited to the shoulder in which the intramuscular vaccine was administered; and there is no other condition or abnormality present that would explain petitioner's symptoms. Therefore, petitioner is entitled to a presumption of vaccine causation.

Id. at 3-4. Respondent further agrees that

[w]ith respect to other statutory and jurisdictional issues, the records show that the case was timely filed, that the vaccine was received in the United States, and that petitioner satisfies the statutory severity requirement by suffering the residual effects or complications of her injury for more than six months after vaccine administration. See 42 U.S.C. §§ 300aa-11(c)(1)(D)(i). Petitioner avers that no civil action or proceedings have been pursued in connection with the vaccine-related injury. See 42 U.S.C. §§ 300aa-11(a)(5) and -11(c)(1)(E); Pet. Ex. 9. Thus, in light of the information contained in petitioner's medical records and affidavit, respondent concedes that entitlement to compensation is appropriate under the terms of the Vaccine Act, and will focus resources on determining the amount of compensation to be provided to petitioner in accordance with the terms and conditions of the Vaccine Act.

Id. at 4.

In view of respondent's position and the evidence of record, the undersigned finds that petitioner is entitled to compensation.

IT IS SO ORDERED.
