[m]edical personnel at the Division of Injury Compensation Programs, Department of Health and Human Services (DICP), have reviewed the petition and medical records filed in the case. It is respondent's position that petitioner has satisfied the criteria set forth in the Vaccine Injury Table (Table) and the Qualifications and Aids to Interpretation (QAI); petitioner had no history of pain, inflammation or dysfunction in his right shoulder; his pain and reduced range of motion occurred within 48 hours of receipt of an intramuscular vaccination; his symptoms were limited to the shoulder in which the vaccine was administered; and no other condition or abnormality was identified to explain his initial symptoms. 42 C.F.R. § 100.3(a), (c)(10).

IT IS SO ORDERED.
