[i]t is Respondent's position that Petitioner suffered SIRVA as defined by the Vaccine Injury Table. Specifically, Petitioner had no recent history of pain, inflammation, or dysfunction of her left shoulder that would explain the alleged signs, symptoms, examination findings and/or diagnostic studies occurring after vaccine injection; the onset of pain occurred within forty-eight hours after receipt of an intramuscular vaccination; the pain was limited to the shoulder in which the vaccine was administered; and, no other condition or abnormality has been identified to explain Petitioner's left shoulder pain.

*Id.* at 4-5 (*citing* 42 C.F.R. §§ 100.3(a), (c)(10).) Respondent further agrees that "Petitioner suffered the residual effects of her condition for more than six months." *Id.* at 5 (*citing* 11(c)(1)(D)(i)).

**In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.**

**IT IS SO ORDERED.**
